

Petition to set up an international Tribunal to try President Donald J. Trump for Crimes Against the Peace

The UN General Assembly should invoke under Article 22 of the Charter of the United Nations to Establish an International Tribunal to try Donald J. Trump for Crimes Against Peace for authorizing the United States' military assassination of Iran's most powerful military commander General Qasem Soleimani.

The Nuremberg trial established key principles to apply in the case of Crimes against Peace, and War crimes. Two key principles are the following: (Principle 3) The fact that a person who committed an act which constitutes a crime under international law acted as head of state or responsible government official does not relieve him from responsibility under international law.

(Principle 1) Any person who commits an act which constitutes a crime under international law is responsible therefore and liable to punishment.

It is time to finally establish an international tribunal for the Prosecution of Persons Responsible for Serious Violations of International Humanitarian Law

AND to try Donald J. Trump. This tribunal will incorporate the principles from the Nuremberg and would be based previous International Tribunals.
