### **A Disturbing Glimpse into the Canadian Military Mind**

PEJ News - Joan Russow - Global Compliance Research Project - I previously posted the letter that I sent to the Hon. Peter MacKay, Minister of Defence. This letter expressed my concern about belligerent recruitment posters in bus shelters. I have subsequently become aware of disturbing responses on Army.ca.

### **COMMENTS ON ARMY.CA ABOUT MY POSTING OF COMPLAINT ABOUT CF RECRUITING POSTERS:**

RHFC\_piper Personally, I see two options here... and these is just my opinions;

1) Just ignore her and maybe she'll just dry up and blow away... Since she seems to be an attention wh0re, this may be the best option.

or

2) Round up her and all those like her (including Taliban Jack), toss them in a sea can and drop it in the middle of Afghanistan... preferably Helmand or the rougher areas of Kandahar... then they'll have a keener understanding of who the "belligerent" ones are over there.

Oh.. yeah... give them a radio too... with a direct line to the CF over there. And when they call for help, and they will, just tell them they won and the Canadian Army doesn't exist anymore, so they have to fend for themselves.

Normally I'd get angry about the sheer stupidity of this person, but I see no point. I figure she's dumb enough to remover herself from the gene pool sooner rather than later... which just means more food for me.

ANOTHER RESPONDED: Heh... a 120th Trimester abortion.

As much as it seems wrong, as I've said before; more food for me. Consider it thinning the herd... Like a cull on stupid/ignorant people.

ZELL DIETRICH RESPONDED To Larry Strong<sup>1</sup>s suggestion:

I find it hard to argue with the sentiment that the gene pool needs more chlorine.

QUAGMIRE ADDED: Perhaps a load that should have been swallowed.
