5. LOVE THE LIBRARY RALLY - Feb 14th

Join us on February 14th

12 noon to 1:00 pm

* Show support for your library workers by forming a human ring around The Emily Carr Branch Library

3500 Blanshard Street (if you get to the Saanich Municipality offices you have passed it)

* Bring your gumboots for some stomping and your voice for some chanting.

* Refreshments and the opportunity to meet other library lovers.

My own personal opinion:

When I worked at Hillside Mall on Saturday at the Volunteer Fair at the Friends of the Library table I encountered many, many people are very supportive of the library workers and want those bull-headed board members to get back to the bargaining table and deliver pay equity for the women. The situation is outrageous. Given the fact that the Campbell government has after 6 years had its hands slapped by the Supreme Court of Canada to the tune of more than \$75 million dollars (when it ruled on Bill 29 re: the Hospital Employees Union), you would think the local politicians would have learned that collective bargaining is a right protected under the

Canadian Charter of Rights and Freedoms. Justice will come for these library workers; it's just a question of how much it's going to cost everyone ! The HEU workers paid dearly. Let's not repeat this unnecessary mistake. Let's get organised !

Please write to your Mayor and Council regarding getting back to the bargaining table to settle with the Library workers. There is an easy way to do this, by going to <http://www.cupe410.ca/> for the link and some information or by just going to

<http://overduepromise.ca/>

and choosing your municipality.

STAR DREAMS

Award winning documentary by Robert Nichol

"Visually Breathtaking" Victoria Times Colonist

Alfred Lambremont Webre, JD, MEd

Futurist & Author

"Alfred Lambremont Webre's odyssey into the realm of life in the vast Universe surrounding planet Earth is indeed a fascinating journey if you read it with an open mind... To turn us in the direction of re-unification with the rest of creation the author is proposing a 'Decade of Contact' - an era of openness, public hearings, publicly funded research, and education about extraterrestrial reality. That could be just the antidote the world needs to end its greed driven, power-centered madness."

- Honorable Paul T. Hellyer, Minister of National Defense under Canadian Prime Minister Lester B. Pearson and Deputy Prime Minister of Canada under Prime Minister Pierre Trudeau

DVD and Talk:

Friday February 15th 19:00 - 21:00,

Alfred Lambremont Webre, JD, MEd, host of EXOPOLITICS RADIO and International Director of the Institute for Cooperation in Space (ICIS) is the author of EXOPOLITICS: POLITICS GOVERNMENT AND LAW IN THE UNIVERSE, a book that founded the field of Exopolitics, the new political science of outer space, studying relations between our human civilization and other intelligent civilizations in the Universe.

9. third annual Valentine's Celebration for the Earth - Feb 17th

February 17

from 2 - ~5

in Moss Rock Park.

We have done many ceremonies "on the rock" and for this year the fairies and spirits of this place have requested that we get to know each other either for the first time or to deepen our understanding and relationships. I am very excited about this... we share the land, the air, the water and the fire with them and they are eager to teach us and show us a way that honours our great mother and all her children.

\* Please bring some earth-friendly finger food to share with each other and something shiny for the fairies or any other offering for the spirits of place. Songs, poems, stories, dances are always very welcome.

\* This is an outdoor event, please dress for the weather... the winds can blow very cold up there!!!!

\* Children are welcome, however the parents are responsible for their well-being at all times.

\* And last but not least, please tell your friends about this or share this message with your lists... giving consciously thanks to the earth in a circle is one of the most important tasks we can do in this life time.

Love and blessings and hope to see many of you then!!!

Marianne
