### What Chemtrails Really Are

Not so pretty a picture here; however, for myself, regardless of how much truth there is to all this, the most important thing to concentrate our attention on and give power to is the radiation of love. Love-powered emanations raise the vibrations of our bodies and the planet, rendering all lower level vibrations inert; particularly violet-flame radiation as directed by the Mother Earth, the Ascended Masters, especially St. Germain, the Master of the Violet ray. Let's keep raising the vibrations!

#### The Short Scoop

We are dealing with Star Wars. It involves the combination of chemtrails (for creating an atmosphere that will support electromagnetic waves),

ground-based, electromagnetic field oscillators (gyrotrons), and ionospheric heaters. Particulates also make directed energy weapons work better.

Chemtrails are the medium - GWEN pulse radars and the various HAARPs are the method. or -- Chemtrails are the medium--gyrotrons, ionospheric heaters, exotic weapons are the method.

This system appears to be in Russia, Canada, the United States, and all of Europe. Exotic weapons can be mobile, stationary, land-based, aerial, or satellite.

It is an offensive and defensive system against EM attacks and missiles. It uses ionospheric particle shells as defense mechanisms (like a bug-zapper shell) against missiles and EM attacks. That means they spray and then pump up the spray with electromagnetics. When these shells are created using the oscillating, electromagnetic, gyrotron stations, it "excludes" and displaces the background magnetic field.

There are satellite weapons involved. See my page, "American Killer Satellites" and the pages following that for pictures of various electromagnetic beams coming from satellites. We are getting readings of microwaves, x-rays, and some other kind of emission that we are not sure of, maybe a low-intensity laser.

We are also photographing gas plasma generation due to the heating of chemtrails by electromagnetics. These are called columnar focal lenses

[plasma columns] and horizontal drift plasma antennas. Various size gas plasma orbs are associated with this technology. These orbs can be used as transmitters and receivers because they have great, refractory and optical properties. They also are capable of transmitting digital analog sound.

What does that mean? Someone or someones are very involved in unconstitutional domestic spying and the orbs carried on electromagnetic

beams can be used for mind control programming. The satellites can be programmed to track and monitor various frequencies on different parts of your body. These electromagnetic beams carrying the gas plasma orbs stick due magnetic polarity and frequency mapping and tracking to people's eyes, ears, temples, and private parts.

The satellites upload holographic mind control movies, pictures, sounds, and sensations to people through this technology. The Air Force has stated in

"Air Force 2025" that their goal is to develop virtual reality mind control.

Depending on the how the computer is programmed or depending on the mood or intent of the person interfacing with the technology, you can be probed, bothered, gaslighted, frightened, electronically raped, or tortured. It scans your brain frequencies and deciphers your thoughts.

Are we the lab rats for this development or is something very wrong in the military branches somewhere? Because developmental projects in government and military are often so compartmentalized, I suppose someone could be using and developing this technology without the proper oversight. We are talking about satellite plasma and frequency weapons.

Haarps can create earthquakes and can also x-ray the earth to find underground military bases, gold, or oil reserves. It can also operate as an over-the-horizon or under-the-ocean communications system. This system can control the weather or create disasters. Taken together with the aurora keyhole through-your-roof satellite surveillance system, Echelon electronic computer/phone sweeps, plasma-cloaked DOD Drug War helicopters and stealths, implants, and cameras on the street, it constitutes one, big global and space control grid.

These weapons involve beams. When you cross two different beams, you can create scalar energies. These energies can be used as untraceable weapons for nuclear size explosions or for defense. These crossed-energies can also be used to cause a person's physical electrical system to fail or for mind control. Scalar energies can be utilized in hand-held military guns and on tanks. They can dud-out electronics or cause large, electrical blackouts. Scalar energies are practically impossible to shield against. You need lead, ceramics, and a deep underground facility to not be affected by these weapons. Or you need to be up and above the field of battle.

People who are working on these issues hear tones and hums. If you hear persistent tones and static, have body vibrations, burning sensations, neurological damage, immune system damage, are hearing electronic voices, or other anomalous activity then you may be being targeted by directed energy mind control weapons. These weapons could be on helicopters, jets, stealth fighters, or on satellites. These directed energy weapons can be sent to you via hand-held devices or piggy-backed in on cell phone and satellite towers.

Is it possible that someone(s) are very afraid of coming famines and riots due to the failure of the ecological system, and they are saturating the

earth with chemtrails for large-scale, gas plasma mind control? Someone would like to get to that oil under the melting (due to chemtrail-trapped EM heat) North Pole. And, I guess the Third World is not a part of this system.

I don't think that the developed nations are going to let them in on this either. Any country that joins this NATO system will become mind controlled and diseased due to the associated, intense, oscillating, electromagnetic fields, electromagnetic soup, and the poisonous, toxic chemtrails. We risk the earth's spin and tilt becoming messed up due to mucking around with the

magnetic fields through this military technology.

It constitutes U.S. global domination via NATO and the erosion of civilrights. According to Charlotte Iserbyt and Al Martin, there is ex-KGB and ex-STASI advising our new Office of Information Awareness. They are the ones creating our new internal passports (national ID). And under "The Treaty on Open Skies," we have overflights by Russian and German military. Obviously, we have another "Project Paperclip" in the making. We can add the new thugs to the 2,000 Iraqi brought into the intelligence agencies by Daddy Bush who are now living in Nebraska.

The elitist corporate government is going to hold the rest of us hostage with nukes in space (If the Policy for a New American Century group - PNAC - Bush and cronie think tank has their way), along with directed energy attacks against any country or citizen that does not want to see more weapons proliferation and more war. These weapons can create climate war, weather war, mind war, cyber war, disease war, and undetectable war. Taken together they can create economic war.

This system is not stopped it will kill billions due to aluminum and barium poisoning along with DNA changes due to EM proliferation. It will kill

billions due to crop failures and world-wide famine. It will cause heart attacks, strokes, and cancers. It will cause stillbirths, miscarriages, and infertility. The chemtrail sprays often have fungi, bacteria, viruses, dessicated red blood cells, crystalline substances, carbon, metal cations, lithium, other chemicals, heavy metals, and God knows what - probably smart dust or nanocrap. Years of biowarfare testing on the American public is no big secret anymore. Spraying germs in the sky where they mutate due to the ultra-violet light - brilliant plan my man. Are we acceptable losses or is this by design?

I know that many of the major players have big investments in pharmaceutical companies, GM seeds (seeds that can grow in an electromagnetic soup), weapons and directed energy development contracts, oil contracts, genetic research, and mind control research. Some of these people have had a familial history of financial and policy support for population control, eugenics, Hitler, Mao, Stalin, Lenin, Marx and various dictators. Some of the major players were the masterminds of the death squads in Central and South America. They stand to make a big profit on our death and disease.

I assume that they know the dangers of this system and that they take care to stay in their shielded, air-filtered offices, homes, bases, and cars. I

assume they take chelating substances to remove the barium and aluminum from their bodies and minds. If not, then they really do not understand the far-ranging implications of this destructive system. Congress may not understand just what a terrible weapons system and control grid they are funding.

As I understand it, Tesla towers are to be created over the 10 - 12 magnetic poles and the GWEN system phased-out. This should allow total control of the earth through weather control, mind control frequencies, or through death rays at anyone or any country who gets in the way. This natural,

electromagnetic earth was not meant to be an un-natural dynamo to power man's weapons or utility companies.

Over-unity systems (Tesla devices) are as of yet, another unexplored and probably not understood man-made energy. We should be very suspect of free energy. As we can see, the forms of man-made energy that have been created and used in the past have not been good for this planet. Maybe it is time to reconsider the options available to us through the development of crops for fuel, wind, solar, and water power. We need world-wide, different, more holistic, renewable, energy programs.

Is there any good news? Yes. There has been tons of particulate dumping through the spray operations for 8 years over the Americas, Europe, Scandinavia, Eastern Europe, and from what I can find out Russia. And, what goes around blows around, right? So, these substances are probably actually global. I have found out through scientific literature that when aluminum is hit with electromagnetic energy (laser usually) it creates the gas plasma that allows the remote viewing, virtual reality mind control, and directed energy weapons to work so well.

I would think by now there are so many aluminum particulates in our environment and these continents are so saturated with this substance that all of these countries should be able to zap and mind f--k each other quite well for many years to come. Maybe once they have clobbered each other with light-saber beams for awhile they will have knocked some sense into each other and will decide that non-proliferation and arms reduction is the more civilized and mature direction to take in world affairs.

Interested persons might want to consider taking my resolution and passing it at the city, state, and nationwide levels.
