Tousilum Passes a Request to Us

Oct 16 --- From RON GEORGE

My name is Tousilum. I am a member of the Quw'utsun Tribes located on Vancouver Island, British Columbia.

We request each of our relations to join in with 'One Mind, One Heart' in Prayer for

Mother Earth on October 16, 2005

In our surrounding mountains and rivers the Ancestors are saddened the mountains are bare and the mighty rivers go dry. The four legged and all the animals that are connected have no home, the finned relations can no longer return to their spawning grounds to sustain the generations of life.

We only ask that each one come together within your own surroundings and within your own beliefs to have that prayer for the healing of our sacred Mother Earth. There can be no question when it comes from the heart.

Thanking you in advance.

Tousilum
