□ **By the Sierra Club of Canada**

Our friends over at the World Wildlife Fund had a group of scientist look over the [Joint Panel Report](#) on the Enbridge Northern Gateway Tar Sands Pipeline.

They concluded that the report is flawed and the federal government should not approve the pipeline. Over 100 scientists have now signed a letter to the Prime Minister urging him not to approve the pipeline.

Consider this an invitation to [add your voice](#) to the scientists, thousands of Canadians, and over 100 First Nations who oppose this pipeline!

[CLICK HERE](#) TO SEND YOUR LETTER NOW.

Thanks for taking action for the planet.
